19 months
5 LTT activities
4 partner countries

1 Intellectual Output: 80 pages of concentrated knowledge

Community Guarantee: Profile of effective NEETyouth support service

Discuss

- 1) What is new/ different compared to your reality?
 - 2) What could you take home?

How could this be put into practice?

```
inspiration
                 comm 2 decision-makers
             new ka2 projects multisectoral approach
                  gain competence to work
                  project
                                  involving other sectors
                    spreading best practices a training module
more practice examples
                                cooperate cross-sectoral
open one urself
                          online availability-share
                    recognizing bestpractises
      network
   tool for inclusion
                             to design service 4 neets
                    make hands on approaches
              engage local government
                                                keep following up
                           lobby with policy maker
          multilevel networking involving stakeholders
   oublish it
          peer learning
                               by being more hands-on
           asking the youngsters
                                         serviceproviding
                     media campaign
```

Wrap up & Zoom-out

Thank you!
