“Creative spark”

Find a spark in the circle
of a future that peaks over the mountain.
Share it in an open space
and let it flourish…

***
Creativity opens doors.
It helps you discover the world.
In virtual or real life we seek connection.

***
Make your life online
A tool to improve your world
When offline you live

***
Online or offline
Youth still connect
Place yourself next to them
To earn their respect

Everything starts from the talk
Impact depends on the medium.

1:1 is a medium.

***
A fallen tree on the brink
of a river can become
a bridge

***

Hybrid is the way to go!
Catch young people on the go,
bring them offline, form a group,
and make a good hook
to get attention on social media
about the huge “wave”
your offline activity took.

How lucky we are
We take so much for granted.
Don’t waste opportunities
grab them with both hands
You never know where they
will lead you

***
There are more questions than answers
Remember that your voice matters
Always strive for the good
And keep empowering the youth

***
Once upon a time there was
a beautiful bridge between
online and offline life
that was strong
enough to build
a real, tangible
democracy
where everyone
lives equally happy
and seen

From Tiktok to Real talk
Screens faded, stories stayed alive
Youth found human spark,
and I’ll carry this spark into
Tomorrow’s youth work!

Some topics fly,
We talk all night,
But deeper thoughts
May hide away
Too shy to join
The loud cafe.
Sometimes a chat
Online feels right,
A safer space
To share a fight.
And sometimes all
It takes, you'll see,
Is tea, two chairs…and honesty.
