The magic

Youth work
in uncertain times?

Uncertainty has always been a reality. It creates new opportunities and requires creativity.

> “Uncertainty is the only constant.”

Emerging challenges, appropriate answers!

In order to act more focussed, we must understand the challenges and strive for answers to create a better world.

"It depends on …"

Make youth work visible!

Outdated resources, ineffective policies and weak advocacy make it harder to achieve recognition, sustainable funding, and better support for young people and youth workers.

> “Good youth work cannot survive on passion alone…”

Invest in horizontal skills

Successful lobbying requires lifelong learning that fosters positive thinking, critical reflection, empathy and the ability to understand different perspectives.

"Empathy opens perspectives and perspectives are crucial for progress."

Dare to be authentic

WHY are you’re doing this?

What are the values inspiring you?

Are you acting accordingly?

„We need to be a role model without playing a role.“

Take care!

Youth workers often take on too much pressure and responsibility. For that reason, future youth workers need to learn in their studies to focus also on themselves, especially in uncertain times.

„Take good care of yourself –
youth work is a marathon, not a sprint.“
